9. Additional Information

[24 CFR Part 903.12 (b), 903.7 (r)]

A. PHA Progress in Meeting the Mission and Goals Described in the 5-Year Plan

(Provide a statement of the PHA's progress against the goals and objectives established in the previous 5-Year Plan for the period FY 2000 – 2004)

The Authority has successfully managed to reduce and maintain vacancies at a rate at or below the normal three (3%) percent rate. No private or other public funds have been leveraged to create additional housing opportunities. However, partnerships have been formed with local housing agencies whereby referrals are facilitated for families in need of affordable housing. The PHAS score has consistently ranked the Authority as a high performer. Needed capital improvements and management styles have increased the customer satisfaction level. Management has focused on the efficiency of operations whereby customer satisfaction would be a priority. Renovation of public housing units with the Capital Funds Program has been a huge success. Force account labor has enabled the Authority to utilize a holistic approach to renovation. In partnership with *Helping Hands for Progress*, *Inc.*, the Authority has begun an initial homeownership initiative. Flat rents have enabled the Authority to attract and retain working families with higher rents. This has created a mix of working and non-working families. Police presence and barriers to entry continue to be the biggest deterrent to drugs and drug-related crime. A partnership with 4-County Community Services has increased the opportunities for assistance with basic necessities for our residents. This partnership has promoted self-sufficiency for our families. We have initiated our own program to assist our elderly and disabled residents with aging in place. It is called *Full Circle*. Constant monitoring of program procedures and consideration or alternatives has provided for an affirmative approach to ensuring access to housing of all persons regardless of race, color, religion, national origin, sex, familial status, and disability.

B. Criteria for Substantial Deviations and Significant Amendments

(1) Amendment and Deviation Definitions

24 CFR Part 903.7(r)

PHAs are required to define and adopt their own standards of substantial deviation from the 5-year Plan and Significant Amendment to the Annual Plan. The definition of significant amendment is important because it defines when the PHA will subject a change to the policies or activities described in the Annual Plan to full public hearing and HUD review before implementation.

- a. Substantial Deviation from the 5-Year Plan: Includes a significant change, involving a revision in the plan and the timeline, in which the activities/events are scheduled for completion. Budget/program revisions that involve less than ten percent of the total program budget are deemed to not significantly modify the Annual Plan.
- b. Significant Amendment or Modification to the Annual Plan: Examples include changes to rent or admission policies or organization of the waiting list; additions of non-emergency work items or change in use of replacement reserve funds under the Capital Fund; and any change with regard to demolition or disposition, designation, homeownership programs or conversion activities. Budget/program revisions that involve less than ten percent of the total program budget are deemed to not significantly modify the Annual Plan.
